June 7: National Boone Day

Frontiersman Daniel Boone was born on November 2, 1734. He first started exploring what we know, today, as Kentucky, on June 7, 1769. Daniel founded the village of Boonesborough, Kentucky. This was one of the first settlements to the west of the Appalachian Mountains. Boone's adventures across the frontier made him one of the first famous American folk heroes. Daniel was known for being very outdoorsy and rough. He supposedly killed a bear at just 3 years old. Do you think that is true? You're right, it's not. Daniel did get his first rifle at the age of 13, though, and would leave his family to go out hunting for days at a time.

Where was the village Boone founded?
What are some adjectives to describe Daniel?

June 7: National Boone Day

Daniel Boone was one of 12 children to his parents. Compare and contrast what life would be like with 11 siblings versus how many siblings you have.

Boone and 11 siblings

- Noisy
- Always someone to play with
- Chaos

Me and 2 siblings

JUNE HOLIDAYS

Morning Work

Tips for Implementation

Overview

Routines are key for classroom management! Having a consistent morning routine with activities your students can complete independently is crucial to help teachers get organized and start the day off on the right foot.

When I was in the classroom, I wanted to provide quick, meaningful, standards-based work that would help my students solidify some important skills through repetition.

These morning work activities are designed to be engaging and fun, while also integrating reading, math, science, social studies, and health. Using these activities in your daily morning routine will help your students with:

- **Reading Comprehension:** Find text evidence for “right there” questions.
- **Writing:** Be exposed to various genres of writing, including opinion, functional, narrative, and reading response passages. Students will be required to use examples and details to support their thinking.
- **Math:** Create and respond to questions about bar graphs.

I recommend giving your students approximately 15 minutes to complete all of the activities each morning.

Review and Quality Control

Let's be honest. You don't need “one more thing” to grade. Who has time for that? Spend five minutes each day reviewing student responses and asking follow-up graphing questions as a class.

I do recommend taking a few minutes either every day or weekly to do quick checks in your classes' journals.

I prefer quick checks daily. In the last few minutes of morning work time, rotate through the classroom with your flair pen, and skim students' work to give them feedback (orally or written). Quick check marks show that you checked certain entries. If you are not consistently checking quality and setting expectations for complete responses, students will not produce quality work. The work will not be meaningful then.

June

Date	Holiday
1	National Pen Pal Day
2	National Rocky Road Day
3	National Egg Day
4	National Cheese Day
5	World Environment Day
6	D-Day
7	National Boone Day
8	National Best Friends Day
9	National Children's Day
10	National Ballpoint Pen Day
11	National Making Life Beautiful Day
12	National Loving Day
13	National Sewing Machine Day
14	National Flag Day
15	National Smile Power Day
16	Father's Day
17	National Garbage Man Day
18	National Turkey Lovers' Day
19	National Watch Day
20	National American Eagle Day
21	Take Your Dog to Work Day
22	National Onion Rings Day
23	National Hydration Day
24	National Pralines Day
25	National Catfish Day
26	National Beautician's Day
27	National Handshake Day
28	National Alaska Day
29	National Camera Day
30	Social Media Day

Daily Bar Graph Directions

Use your dry-erase board or a piece of chart paper as a daily graph template. Laminating a piece of chart paper will help it last longer and allow you to change graph titles.

Setting up the Graph

1. Each morning, set up the graph by labeling the graph title and x- and y-axes with sticky notes. (Print the labels using the sticky note template. Print out the template, and place sticky notes on the indicated squares. Run the sheet through your printer with the sticky notes attached as normal.)
2. As your students become familiar with the routines, have them take over with setting up the graph! Leave the titles and labels blank, and ask your students what they should be during your review time. You can also select different students each day to set up and label the graph.
3. Provide blank sticky notes for your students to use each morning to select their graphing choices. To save paper, laminate sticky notes, and place magnets or Velcro on the backs.
4. After students complete the writing activity, have them place their squares on the graph.

Bar Graph Questions

Asking Graphing Questions

When beginning this routine, I recommend asking the graphing questions orally and having your students respond orally during a class meeting. As they become familiar with routines and questions, you can have them write and answer their own questions. I had my early finishers write and answer questions that followed my question formats. They would then “play teacher” by running the review and asking their classmates their questions.

2nd Grade Graphing Questions (2.MD.D.10– Single Scale Graphs)

- How many people selected (choice 1) and (choice 2)?
- (The number of) students voted today. If (a number of) students voted for (choice 1), how many students voted for (choice 2)?
- How many more people selected (choice 1) than (choice 2)?
- How many less people selected (choice 1) than (choice 2)?

3rd Grade Graphing Questions (3.MD.B.3– Scaled Graphs)

After students have mastered questions in the 2nd grade category, begin to mix up the graphing scales, and ask the following questions:

- 2-Step “How Many More” Questions: How many more people selected (choices 1 and 2) than (choice 3)?
- 2-Step “How Many Less” Questions: How many less people selected (choices 1 and 2) than (choice 3)?

June 2: National Rocky Road Day

The delicious mixture of chocolate, marshmallows, and nuts makes up the rocky road flavor. The most popular way to consume this combination is in ice cream. In the late 1920s, William Dreyer was inspired by Joseph Edy's chocolate candy and concocted this ice cream flavor. He actually used his wife's sewing shears to chop up the marshmallows and walnuts to mix into chocolate ice cream. Soon after this flavor was developed, the stock market crashed. The ice cream was named rocky road to bring delight to people during the Great Depression. Enjoy today with a big bowl of rocky road ice cream.

Describe what rocky road ice cream is.

How did rocky road ice cream get its name?

How Can I Use This Product?

Thank you for your purchase! I work hard to create products that support teacher and student success. Please note that the product is sold with the purpose of use by a single teacher in a classroom. If you need to use this product with more than one teacher or in multiple classrooms, additional licenses are available at a discount. You can access them by visiting your "Purchases" page and then selecting "Download Additional Licenses."

Good to Go:

Not OK:

- Use this product personally.
 - Use this product in your own classroom.
 - Provide to your students to use at your instruction.
 - Print and/or copy for use in your classroom.
 - Provide print version(s) of specific pages within the product to a substitute teacher with the sole purpose of instructing your students.
 - Review this product with others with the sole purpose of recommending the product, provided you include the link below:
- Give to others to use personally.
 - Give to others to use in another classroom.
 - Give to parents to use with their children outside your lessons.
 - Print or copy this item to share with other teachers or other classrooms.
 - Publish or host online in a manner, including personal, classroom, or district websites,
 - Publish, sell, or otherwise disseminate the product to anyone
