The Human Body

The human body is like a machine! Body parts work together to make you move. Your brain is the control center. It sends messages to your body. Your brain helps you think. It makes you feel. Your brain also helps you move. If you touch a hot stove, you move your hand. A message is sent to your brain so you don't get burnt.

Your lungs are in your chest. They help you breathe. You breathe air. Oxygen is moved to your blood. Your lungs remove carbon dioxide from your blood.

Your heart is a muscle. Your heart pumps blood through your body. Blood moves oxygen and nutrients to parts of your body. Blood travels through your body. Blood travels in arteries and veins.

Who protects Loggerhead turtles?

How are Loggerheads protected?

What might happen if a sea turtle sees a plastic soda floating in the ocean?

What can you do to save Loggerheads?

1. Eat more fish.

2. Take sea turtles home.

3. Clean up your trash at the beach.

ABOUT LEXILE LEVELS

MagiCore Learning, LLC is a certified Lexile® Partner. These texts are officially measured and approved by Lexile and MetaMetrics® to ensure appropriate rigor and differentiation for students.

The Lexile Framework® for Reading measures are scientific, quantitative text levels. When the Lexile of a text is measured, specific, measurable attributes of the text are considered, including, but not limited to, word frequency, sentence length, and text cohesion. These are difficult attributes for humans to evaluate, so a computer measures them.

Common Core State Standards uses Lexile level bands as one measure of text complexity. Text complexity ranges ensure that students are college and career ready by the end of 12th grade. Lexile measures help educators scaffold and differentiate instruction, as well as monitor reading growth.

Grade Band	Lexile® Bands Aligned to Common Core Expectations
K-1	190L-530L
2-3	420L-820L
4-5	740L-1,010L
6-8	1,185L-1,385L

Keep in mind when using any leveled text that many students will need scaffolding and support to reach text at the high end of their grade band. According to Appendix A of the Common Core Standards, "It is important to recognize that scaffolding often is entirely appropriate. The expectation that scaffolding will occur with particularly challenging texts is built into the Standards' grade-by-grade text complexity expectations, for example. The general movement, however, should be toward decreasing scaffolding and increasing independence both within and across the text complexity bands defined in the Standards."

Sea Otters are in the weasel family. They are mammals. Sea otters are one of the smallest ocean mammals. Sea Otters live in the North Pacific Ocean. They use their back feet and tail to swim. They float on their back. They can walk on land.

Sea otters are brown. They have fur. Fur keeps them warm. Fur stops their skin from getting wet. Otters have a pouch on their chest. The pouch holds food. They eat fish and shellfish. Otters use rocks to crack open their food. Male otters stick together. Female otter babies are called pups.

Sea otters stay together.

Sea Otters

Name: _____ Date: _____

Loggerhead sea turtles help protect the turtles.

Loggerhead Sea Turtles

Loggerhead sea turtles are reptiles. They spend most of their lives swimming in the ocean. Loggerheads swim thousands of miles. They lay their eggs on the same beach where they hatched. Loggerhead turtles can live 67 years. They eat sea animals. They eat shellfish. They eat clams. They eat jellyfish. Loggerheads have been endangered since 1978. Pollution hurts them. They think plastic bags are jellyfish. Humans have taken over their nesting areas. Fishing nets kill many Loggerheads. Sea turtle patrols walk the beach. People try to save Loggerheads sea turtles. They hope to save turtles that find their way back to the beach. If you live by the beach, you should consider joining a turtle patrol.

Answer Questions

Answer the following Questions. Underline the text evidence in the color shown.

1. Why did Helen become deaf and blind?

Helen got sick when she was one
Her sickness caused her to become
deaf and blind

2. Who was Helen's teacher?

Helen's teacher

3. What did Helen do?

- a. Helen was in a m
- b. Helen wrote 18
- c. Helen graduat

4. When did Helen

- a. After she
- b. When she
- c. Before
